RUDRAPRATAP SARMA

AI / MACHINE LEARNING INTERNSHIP CANDIDATE

Dharmanagar, Tripura, India | rudrapratapsarma549@gmail.com

GitHub: rudrapratap601 | LinkedIn: rudrapratap-sarma | Portfolio: rudrapratap-sarma.vercel.app

PROFILE

BCA student building practical machine learning foundations through Python and NumPy implementations of linear regression and gradient descent. Experienced in data cleaning, exploratory analysis, and analytics applications. Seeking an AI/ML internship; currently learning AI, generative AI, and LLM concepts.

TECHNICAL SKILLS

Programming & data: Python, SQL, NumPy, Pandas, Matplotlib, Seaborn, Git, Jupyter

ML foundations: Linear regression; closed-form solutions; batch, stochastic, and mini-batch gradient descent; data preprocessing; MAE, MSE, RMSE, R-squared

Applications: Streamlit, PostgreSQL, SQLAlchemy, Plotly | **Currently learning:** AI, generative AI, LLMs

SELECTED PROJECTS

Machine Learning from Scratch | Python, NumPy - Ongoing

- Implemented simple and multiple linear regression with closed-form solutions and batch, stochastic, and mini-batch gradient descent.

- Added manual regression metrics and mathematical explanations in notebooks. Built portfolio demos illustrating optimization and the effect of learning rate and batch size.

Data Analytics Platform | Python, Streamlit, PostgreSQL

- Built a multi-dataset analytics application for upload, cleaning, relationship mapping, SQL-powered analysis, and interactive dashboards.

- Included five SQL aggregations, statistical insights, and automated data-quality reporting.

Trader Performance vs Market Sentiment | Python, Pandas, EDA

- Aligned trader activity with Bitcoin sentiment data; calculated PnL and win rate and compared behavior across five sentiment conditions.

EXPERIENCE & TRAINING

Data Operations & Analytics Intern | Jobyaari

May 2026 - June 2026 | Remote

- Extracted and structured 500+ job opportunities from 35+ government notification PDFs; cleaned, validated, and mapped qualifications for publishing pipelines.

Data Analytics Trainee | YBI Foundation (project-based training)

September 2025 - December 2025 | Remote

- Completed practical training in Python, Pandas, NumPy, and ML fundamentals; performed preprocessing and EDA and built independent analytics projects.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Applications | Manipal University Jaipur | 2025 - 2028
Currently pursuing; Online & Distance mode.

Python Programming and Pandas for Data Analysis - Kaggle
Data Science and Machine Learning Internship Program; 3D & 2D Data Visualization with Python - YBI Foundation
